Travelers' Insurance Company, of Hartford, Conn. The *Pioneer Accident Insurance Company in America*. This successful and popular company has lately added to its extensive Accident business a *Life department*, and is now the only company in existence that issues a *combined policy*, insuring at once against loss of life, either by accident, disease, or old age, and against loss of time caused by any description of disabling accident; CASH CAPITAL, $5,0,000, with a net cash surplus, June 1, 1856, of $175,000. *President*, James G. Batterson; *Secretary*, Rodney Dennis; *General Agent for Mass.*, C. G. C. Plummer, 49 State Street, Boston.

United States Life Insurance Company: Assets, $2,000,000. Branch Office, 76 State Street, Boston. *E. J. Long & Co., General Agents.*

New and *important* plans for *paying-up* and *self-endorsing policies*, original with this Company. *Policies all non-forfeitable.*

Policy-holders participate in the profits, without incurring any of the liabilities of the Company.

The ratio of net assets to net value is much greater in this than in any other old company doing business in Massachusetts.

The last dividend was forty per cent, and an extra of twenty per cent on all previous dividends.

Policy-holders can use or apply their dividends in a variety of ways, than is afforded by any other company.

Weymouth and Braintree Mutual Fire Insurance Company; *Agent*, W. Porter, No. 12 Brazer's Building.

MEDFORD BRANCH RAILROAD.

Trains run to and from MEDFORD, a distance of five miles, eight times a day each way. Fare 15 cents. 8 Package Tickets for $1. Season Tickets, $50 a year. Time, 15 minutes. This is a beautiful village, and a desirable place for summer residences.

ADVANTAGES OF A RESIDENCE ON THIS ROUTE.

Somerville, Medford, Malden, Melrose, South Reading, and Reading, towns within the range of the special as well as the longer trains, possess many advantages for country residences, either through the warm season or the whole year, not exceeded by those of any other towns in the vicinity of Boston. The cheapness of the fare the number of trains, both early and late, in connection with the convenient depot at Boston render this railroad a desirable channel of intercourse between the city and country. That the advantages of these places are appreciated, is evident from the increasing demand for residences on this route, the demand for house-lots, and the steady rise in the value of the land.

BOSTON AND PROVIDENCE RAILROAD.

NEW YORK OFFICE, 173 BROADWAY.

THE BOSTON

MEDICAL AND SURGICAL JOURNAL.

The well-known and long-established Periodical entered upon its Seventy-fourth volume in February, 1866, and will be issued Weekly, as heretofore, from the office of publication,

334 WASHINGTON STREET, BOSTON.

The editorial management is intrusted to two of the Medical Faculty of Boston, members of the State and City Medical Societies, and well qualified for their place by scientific and Literary attainments. And is also freely open to any of the leading physicians of Boston, and contributions are received from eminent members of the profession in other parts of the country. All the Medical and Surgical Reports made to the Boston Society for Medical Improvement are inserted in the JOURNAL, and also the more interesting cases and reports from other Medical Associations in Boston and its vicinity. Valuable communications are also from time to time received from Surgeons in the Army and Navy. Its contents, though mainly of a practical character, are intended to be sufficiently varied to make its weekly visits interesting as well as useful to the medical practitioner.

Price is FOUR DOLLARS a year, payable in advance. Previous numbers of the current volume furnished, and back volumes also supplied, at a liberal discount.

TRUSSES, ELASTIC HOSE, &c.

CODMAN & SHURTLEFF,

13 & 15 TREMONT STREET . . . BOSTON,

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instruments,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suit the truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person two inches below the top of the hip-bone. If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are, full length of leg, three-quarters, half, or knee hose, knee-caps, and anklets.

Also Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, &c. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries; Hearing Trumpets; Auricles and Conversation Tubes for the Deaf; Respirators, to prevent coughing on entering cold or warm air; together with many other articles for use of the sick and invalids.

☞ For Ladies, separate rooms, and attendance by females.—A liberal discount to the trade.

UNION

PASTE AND SIZING CO.

Depot, 102 Central Street, south side State-street Block,

J. S. CHASE, Agent. BOSTON.

TO CONSUMERS OF PASTE AND SIZING.

Your attention is respectfully called to this article. By the aid of machinery in its manufacture we are able to produce an article of Paste superior in quality and cheaper than any thing of the kind now in use, it is perfectly fine, and will not ferment. Put up in barrels, half-barrels, and kegs.

READ THE FOLLOWING.

MESSRS. J. S. CHASE & CO.:

Gentlemen.—We have used your PASTE for the past six months, and can unhesitatingly recommend it to all consumers of "Flour Paste," as being fully up to what you claim for it.

GEO. H. DICKERMAN, Manufacturer of Paper Boxes, Advent Building, Green Street, Boston.
BINNLY & CO., Manufacturers of Paper Bags, 74 Kilby Street, Boston.
O. W. SAGE, Manufacturer of Trunks, &c., 342 Washington Street, Boston.

MORSE BROS., Proprietors of the Rising-Sun Stove-Polish, Canton, Mass.
HAYWARD & CO., Manufacturers of English and French Breakfast-Coffee, 25 Haverhill Street, Boston.

WE ARE ALSO MANUFACTURING

"A PREPARED LIQUID PASTE,"

Superior to any preparation of gums or mucilage now in use, and at much less cost. Boot and Shoe Manufacturers will find this an excellent article for channelling. Persons desiring an article for pasting paper upon tin will find the preparation sold by us for that purpose just what is needed.

Try our paste, and you will never be without it.

P. F. DUCHEMIN. W. H. GRAY.

IMPORTANT TO SHIP OWNERS.

HEBARD'S BINNACLE OIL.

We claim this Oil as one of the most important discoveries of any age. It is harmless and safe as Sperm Oil, as it is *perfectly unexplosive*, which at once renders it the most valuable and desirable production ever presented. It is without a rival as a

BINNACLE AND TOP LIGHT

for vessels while at sea. It will not go out (if the lanterns are properly ventilated) during the most violent motion of the vessel in storms.

It will keep in any climate, improve with age, and remain perfectly limpid in the coldest latitude. It may be stowed anywhere on shipboard without danger to life, ship, or cargo. It is, therefore, of infinite value not only to shipowners, but to underwriters and crews. No ship should go to sea without it, as it is both safe and reliable in heat or cold.

Below we give a few of the many testimonials of those that are using it.

The above Oil, and tubes to go with it, may be had, wholesale and retail, of

B. F. HEBARD & SON,

149 BROAD STREET, BOSTON.

ALSO, OF

GOODSPEED & VANVLIET, 16 West St., New York, and BOLTON BROS., 82 & 84 West Pratt St., Baltimore.

TESTIMONIALS.

Office of the Boston, Norfolk, and Baltimore Steamship Co., BOSTON, March 30th, 1866.

Messrs. B. F. HEBARD & SON.

Gentlemen,—This is to certify that I have been using your Signal and Binnacle Oil for some time, on board the steamship "Geo. Appold," and find it to be the cheapest oil, and giving the best light, of any I have ever used. Yours respectfully,

S. HOWES,
Captain of Steamship "Geo. Appold."

Office of the Neptune Line of Steamers, BOSTON, March 31, 1866.

Messrs. B. F. HEBARD & SON.

Gentlemen,—This is to certify that I have used your Signal and Binnacle Oil for more than six months, and I can truly say, I never had such good lights before using your oil, as it remains perfectly limpid during the coldest weather, and I consider it perfectly safe under all circumstances.

Yours respectfully, C. G. BAKER,
Captain of Steamship "Neptune."

PORTLAND, April 2, 1866.

Messrs. B. F. HEBARD & SON.

Sirs,—This may certify that we have used your Binnacle Oil for our signal lights only, during the winter, and have found it the best for that purpose I have ever used, as it gives a better light with less trouble. I have no hesitation in recommending it to others for that purpose as the best oil we have ever used. Very respectfully yours,

JNO. J. LISCOMB,
Master of Steamer "Montreal."

BOSTON, April 4, 1866.

Messrs. B. F. HEBARD & SON.

Sirs,—This may certify that I have used your Binnacle Oil for our signal lights for some time, and have found it the best for that purpose I have ever used, as it gives a better light with less trouble and no crust to wicks; and I have no hesitation in recommending it to others for that purpose as the best oil in use.

E. L. BLAISE,
Steamer "Nereus," of Neptune Steamship Line to New York and Boston.

Office of the Boston, Norfolk, and Baltimore Steamship Co., BOSTON, April 6, 1866.

Messrs. B. F. HEBARD & SON.

Gents,—Having used your Signal Oil for about ten months, I can recommend it as the best oil for that purpose I have ever used.

Respectfully yours, W. A. HALLET,
Master Steamship "Wm. Kennedy."

BOSTON, April 6, 1866.

Messrs. B. F. HEBARD & SON.

This is to certify that we use *Hebard's Binnacle Oil* for signal light on our steamers, and can recommend its use as a good article.

GEO. KNIGHTS,
Captain Steamer "Lewiston," Portland and Boston Line.

Office of Pitcher, Fuller, & Co., BOSTON, April, 1866.

Messrs. B. F. HEBARD & SON.

This is to certify that we have used Hebard's Binnacle Oil, and have found it to suit our customers better than any Binnacle Oil in use.

FACTORY AND STORE,

CORNER SCHOOL & FRONT ST.,

NEW BEDFORD, MASS.

Persian Green, or Paris Green Imitation.

In offering this article to Dealers and Consumers, we do so with perfect confidence that it is superior in point of Brilliancy, Durability, and Economy to any other Green in the market. It is particularly adapted for Painting Window Blinds, and all kinds of ornamental work, having a covering power unsurpassed by any other Green.

TRADE MARK.

Our LIQUID DRYER FOR HOUSE PAINTING is just the article needed, as it dries very quick and hard, and readily mixes with oil. One half-pint of this Dryer to a gallon Raw Oil makes an oil far superior to boiled oil, as it dries much harder and quicker, and is not sticky, like boiled oil. Put up in cans, half-barrels, and barrels, at prices satisfactory. Warranted to do as recommended, or no sale.

LUCAS & COOK.

J. R. WILLIAMS,

SHARON, MASS.

SANFORD WATERS BILLINGS, A.M., Principal.

The claims this school presents to the public for its patronage are, its location in a town noted for its healthful climate and varied natural scenery and the high-toned morality of its inhabitants, which renders it free from the prevailing temptations of the day. It is located on the Boston and Providence Railroad, and the school is easy of access to those living upon this road. The support which the school has hitherto received also commends it to the favor of the community.

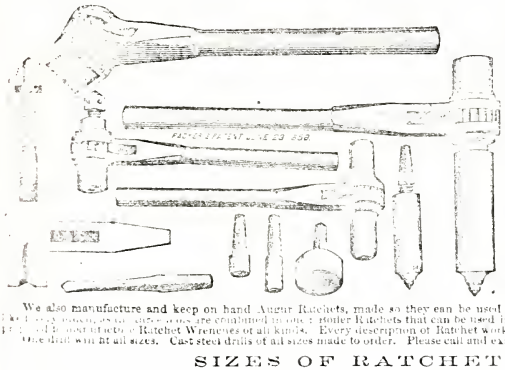
GENERAL MACHINE WORK DONE TO ORDER.

Packer's Improved Patent Ratchet,

MANUFACTURED BY THE EAGLE RATCHET COMPANY,

H. H. PACKER, AGENT, HOLLISTON, MASS.



The above-named Ratchets have been before the public for the last five years, and have given perfect satisfaction in every respect. They are now adopted by the UNITED STATES NAVY and NAVY YARDS, all the principal RAILROADS in the United States and Canada, all the principal MACHINE SHOPS in the New England States, New York, Philadelphia, and all the Southern and Western States; also, on all principal STEAMBOATS and SUGAR PLANTATIONS in the United States and Cuba. All that have used them pronounce their superiority in strength, accuracy, and durability over any other Ratchet.

The drill socket (4), and the screw barrel (2), being combined, as shown, makes it of superior strength. The admirable arrangement of the outside shell (1), with the screw bar (3), and the internal screw, effectually protect the male screw (2) from dust and other foreign matter.

Every ratchet is manufactured under H. H. Packer's supervision, in the best manner, with steel screw pawl and gear, and warranted perfect.

We also manufacture and keep on hand Augur Ratchets, made so they can be used as a ratchet, Wrench, or Drill, which is a very handy article, as the latter can be contained in only 2 inches space. And we are prepared to furnish to order Ratchet Wrenches of all kinds. Every description of Ratchet work made to order.

One drill will fit all sizes. Cast steel drills of all sizes made to order. Please call and examine our samples.

SIZES OF RATCHETS.

No. 1, 10 inch handles.	No. 4, 17 inch handles.	No. 2, 12 inch (Boiler Ratchet).	Sockets.
No. 2, 12 " "	No. 5, 20 " "	No. 1, (Augur Ratchet).	Screw
No. 3, 15 " "	No. 1, 24 " " (Toiler Ratchet).	No. 3, "	

☞ These Ratchets can be purchased at the following places:—In Boston, Mass., Whitney & Bridges, 78 Water St.; May & Co., 146 Milk St. In Providence, R.I., Barker, Whitaker & Co. UPHAM'S IMPROVED

INVERTED TURBINE

WATER WHEEL

This is an IRON WHEEL set in a SCROLL attached to a flume, or a spout, leading from the flume to the scroll, or it may be set in the flume when a large-sized wheel is required to give the desired power.

The Subscriber would say that after twenty-four years' experience in building Iron Water Wheels, during that time having put in more than Seventy Wheels, and having made some important improvements in their construction, he is now prepared to furnish Wheels combining all his latest improvements, of sizes suited for any required power, and for the propulsion of all kinds of machinery, with an economy of expense and water satisfactory to his patrons. He does not, like some of his competitors in the business, say that he can do from 70 to 80 per cent. of the power of the water to be used; but the whole world for an equal to his Wheels; but that whatever statements he makes in regard to the power of his Wheels, he shall endeavor to establish to the satisfaction of his patrons.

Manufactured and furnished at short notice, and Shafting and Gearing supplied when required, by

JOEL W. UPHAM,

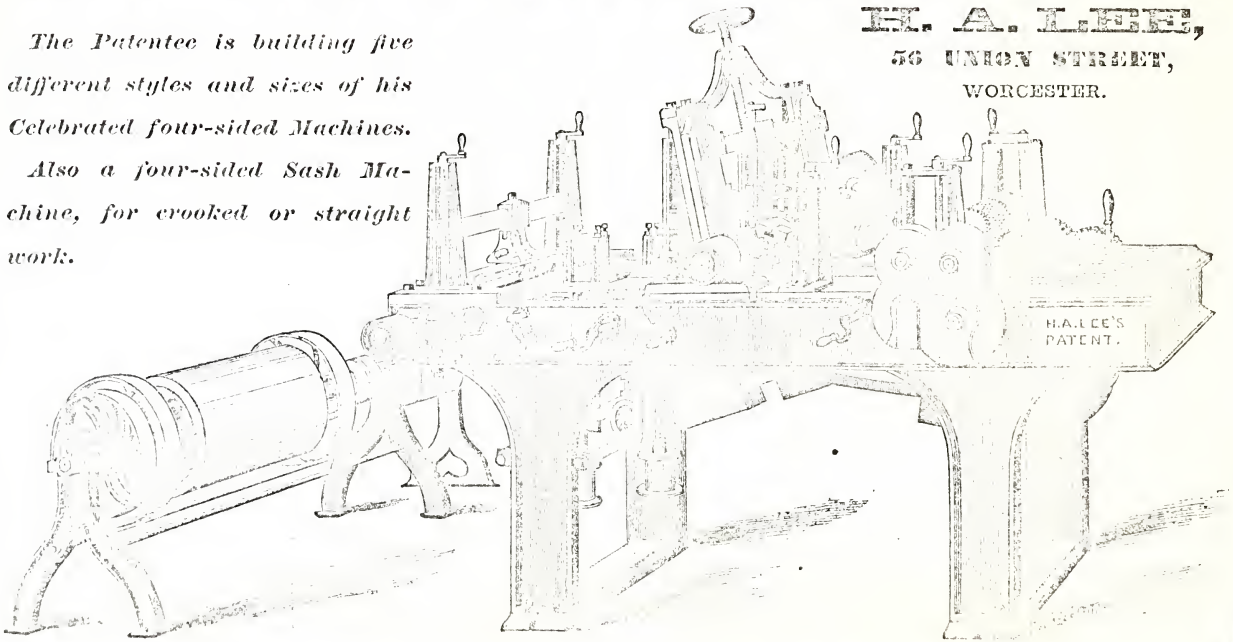
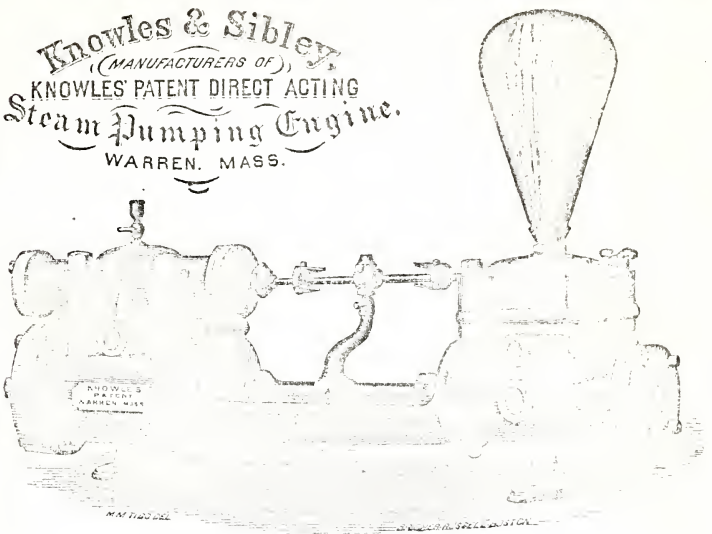
56 UNION STREET,
WORCESTER.



KNOWLES' PATENT STEAM PUMP.

Knowles & Sibley,
(MANUFACTURERS OF)
KNOWLES' PATENT DIRECT ACTING
Steam Pumping Engine.
WARREN, MASS.



PATENTED IN ENGLAND AND FRANCE.

This Pump has received the HIGHEST PREMIUM at every Fair where it has been exhibited; viz., New York, Boston, Baltimore, Cincinnati, Springfield, and Worcester.

It has no Cranks or Fly-wheel, and has no dead points where it will stop; consequently it is always ready to start without using a starting bar, and does not require hand-work to get it past the centre.

It has been used for more than four years for feeding stationary STEAM BOILERS, and has been used more than two years on LOCOMOTIVES, and is the only Steam Pump yet tried that is in every way adapted for that use. It has been extensively used for pumping water for Hotels, Public Institutions, and Manufacturing Establishments of every kind, with perfect success. It has been tested in the Navy, and in consequence is recommended by the Chief Engineer United States Navy, to be used in all Government Steamers and Gunboats.

The Proprietors offer this Pump as the most Perfect, Independent Steam Pump ever invented, and for simplicity and durability defies competition.

For further information, address the proprietors at their Works,

"HOME FOR INVALIDS."

Established in 1847.

EDWARD E. DENNISTON, M.D.,

At Springdale, Northampton, Mass.

NUMBER LIMITED TO FORTY.

REFERENCES.

BOSTON — J. M. WARREN, M.D., JACOB BIGELOW, M.D., H. J. BIGELOW, M.D., JOHN WARE, M.D.
NEW YORK — WILLARD PARKER, M.D. BROOKLYN — C. L. MITCHELL, M.D.

It has been DR. DENNISTON'S effort, while making his house emphatically a "Home" for those who are under his care, to use in their behalf the knowledge which an experience of thirty years has enabled him to acquire, and all those means which in the light of advancing science is shedding on the [illegible] e. Among these, a strict appliance of those Hygienic Laws, to which the term "Water Cure" has been given, stands prominently forward; long experience and observation having satisfied him, that while much may be done by active interference to save life in the acute stages of disease, a judicious appeal to and management of the vital powers can alone be successful in that large class of chronic ailments which so extensively prevails.

Dr. D. would respectfully state that he has been educated in Dublin and Edinburgh, is a Licentiate of the Colleges in both Cities; also a member of the Massachusetts Medical Association — of the Medical Society of New Haven, and has been actively engaged for twenty-three years past in the practice of his profession in Northampton, Mass.

The following Certificate is offered as a testimonial of the confidence and approbation of the leading professional gentlemen of Boston as to the course pursued by Dr. Denniston: —

"We are induced to recommend Dr. Denniston's Establishment for the treatment of Chronic Diseases of various kinds, from a knowledge of the principles on which he proposes to conduct it. We believe it to contain all the advantages of similar establishments, and have confidence in the skill and judgment, experience and prudence, of Dr. D. to direct the application of the various remedial treatment according to the exigencies of the individual cases.

HEMLOCK AND SPRUCE TIMBER AND LUMBER

Of any Size, to Order, by Steam Power.

☞ THE TRADE SUPPLIED ON LIBERAL TERMS.

DAVID DALZELL,

Carriage & Axle Manufacturer,

SOUTH EGREMONT, MASS.,

Respectfully asks the attention of Carriage-makers to his

Superior Patent, Half-Patent, Collins Taper, Improved Taper, and Screw

AXLES;

And particularly to the Improved MAIL AXLE, with Oil-Cup attached.

Which keeps the Axle at all times in the finest running condition, with the smallest amount of trouble, simply by putting the oil in the cup once a week (pure sperm), removing the wheel from the Axle only when the leather washers require to be renewed.

The liability to Heating and Sticking is wholly removed from these Axles; and they are undoubtedly the best Axle extant for running a carriage with ease and safety. From over thirty years' experience in the use of Carriage Axles, the subscriber is competent to furnish an article perfect in its proportions and qualities.

From his numerous patrons he would respectfully submit but two names, which he feels will be sufficient to secure the confidence of all Builders of Carriages wanting a good Axle.

"After several years' use of the different styles of Axles manufactured by David Dalzell, we cheerfully recommend them as worthy the confidence of the best class Carriage-builders.

GEO. W. WATSON, Chestnut Street, Phila.
JOHN R. LAWRENCE, 351 Broadway, N.Y."

Agents for the sale of the above Axles: Messrs. Bouton & Smith, 67 Bowery, New York; Messrs. Lawrence, Bradley, & Pardee, New Haven, Conn.; Jesse Lee, South Fourth Street, Philadelphia.

The subscriber is also peculiarly prepared to furnish all styles of fine pleasure Carriages and Sleighs at a less cost than can be procured elsewhere for the same style of work, as he makes all the material, both wood and iron, on his own premises.

Orders thankfully received, and promptly executed; and all work warranted.

ALEXANDER LANG,

Manufacturer of

STEAM BOILERS

OF

EVERY DESCRIPTION.

PITTSFIELD, MASS.

Respectfully to the reader.

USE RENNE'S

PAIN-KILLING MAGIC OIL!

"It works like a charm" in alleviating and curing all kinds of pain.

DR. A. M. HIGGINS'S

GREAT ANTALGICA!

THIS CELEBRATED MEDICINE has become a HOUSEHOLD FRIEND in every family where its merits are known. For years it has been extensively used in all the NEW-ENGLAND STATES and the ARMY.

No "Puff" can add to its Merits: it is UNRIVALLED!

For DIPHTHERIA, no specific can compete with it; for CHOLERA, DYSENTERY, KIDNEY COMPLAINTS, &c., and as a GENERAL PAIN RELIEVER or KILLER, it is universal in its actions,

AS THOUSANDS CAN ATTEST!

Circulars of the above and of all the other kinds of Dr. Higgins's Medicines sent on application. Orders solicited and promptly filled by the Proprietors,

WOOD & ALLEN, Palmer, Mass.

Also for sale wholesale by WEEKS & POTTER, 170 Washington Street, and GEORGE C. GOODWIN & CO., 38 Hanover Street, Boston.

WADSWORTH SALVE PLASTER

IN ALL VARIETIES.

WATERPROOF, HEAVY, AND LIGHT.

Price from 10 to 25 Cents.

A LIBERAL DISCOUNT TO DEALERS. AN ARTICLE THAT NO PERSON SHOULD BE WITHOUT.

A New and Superior article for applying to wounds where the skin is broken.

For a Burn, it has no equal, if applied immediately. It will relieve the pain at once, and prevent a scar in healing, by first wetting the burn with cold water, and then covering with the Plaster, after wetting the glazed side.

Any ordinary washing will not remove it. No Mechanic that has used it once will ever be without it.

It is equally good for chapped hands.

H. WADSWORTH, Sole Manufacturer, Duxbury Village, Mass.

Entered according to Act of Congress, in the year 1858, by H. Wadsworth, in the Clerk's office of the District Court of the District of Massachusetts.

PATUXET HOUSE,

KINGSTON, MASS.

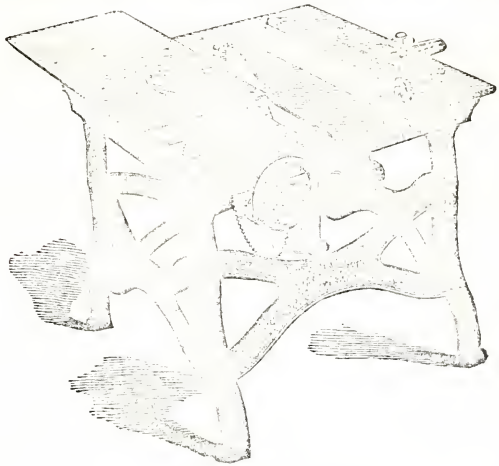
WARDWELL'S

PATENT SAW BENCH.



MANUFACTURED ONLY BY

JAMES GOODRICH & CO., FITCHBURG, Mass.

SOLE OWNERS OF THE PATENT FOR THE UNITED STATES.

These Machines, represented in the above cut, are offered to the public as the only complete Saw Benches for accurate work yet manufactured. They are constructed entirely of Iron, in the best manner, the table being 30 inches by 30 inches, one part sliding on ways, and are are adapted for two Circular Saws, from 6 to 12 inches in diameter, one cutting off and one splitting saw, which can be instantly changed one for the other, and caused to project through the table any desired distance up to 4 inches. For Grooving, Tenoning, &c., the saws hanging upon separate arbors in a swinging frame can, by means of a worm gear, be, by steadily turning a crank, moved to and firmly held at any point desired. These Machines are provided with gauges: on the sliding part of the table is one so constructed as to cut any desired angle, the table being divided and marked, and movable pins inserted so as to cut an octagon, hexagon, miter, &c., with perfect accuracy. On the stationary part of the table, the splitting gauge is so constructed as to move backward and forward by rack and pinion. The face gauge, by means of a link motion, can be set at any angle from a square to a miter, and work done with perfect accuracy in the best manner for a gauge. These Machines should be belted from below, and INVARIABLY from a 12-inch driving pulley, and run from 2500 to 3000 turns per minute; but where it cannot be so belted we, at a small additional expense, furnish friction pulleys, so arranged that they may be successfully belted from above. Thick saws are preferable, say 13 to 14 gauge, having less vibration, and consequently afford greater exactness.

The great advantages of this Machine over all other Saw Benches heretofore manufactured in Pattern, R. R. Repair, Furniture, Cabinet, Sash, Door, and Blind, Piano, Carriage, Carpenter, and all other Wood-working Shops, are obvious, but can only be appreciated by its use.

We refer to many of the largest Manufacturers in the country, who have these Saw Benches in use.

MANUFACTURERS ALSO OF

Wood Planers and Matchers, Boilers and Force Pumps,

FAN BLOWERS, SHAFTING, MILL GEARING, &C.

CRACKIT'S
CHALLENGE HAIR DYE.
The most natural Dye in the world; the easiest applied and most durable; it will not stain the skin, and can be removed instantly; it has advantages above all other Dyes in use, there being no offensive odor whatever. Once tried, always used. Full directions are impressing each package. To be had only of the Proprietor. Also sold by mail promptly attended to. Address Willard N. Cracker, East Saugus, Mass.

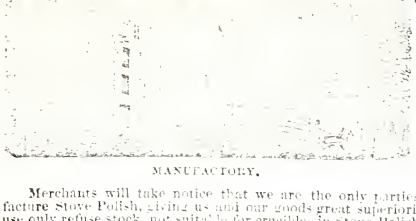
REPAIRING DONE AT THE SHORTEST NOTICE.

THE RISING SUN STOVE POLISH.

MORSE BROS. Proprietors, Canton, Mass.



MANUFACTORY.

The great and wonderfully increasing demand for this new and greatly improved brand of Stove Polish is a sufficient guaranty that

For Beauty of Polish, For Saving of Labor, for Freeness from Dust or Odor, for Durability and Cheapness, this Polish is truly unrivalled.

Merchants will take notice that we are the only parties in the United States who exclusively manufacture Stove Polish, giving us and our goods great superiority over those made by crucible makers, who use only refuse stock, not suitable for crucibles in Stove Polish.

We use only the finest and purest and best material, and aim to make the "BEST STOVE POLISH IN THE WORLD."

We would especially call the attention of Wholesale and Retail Stove Dealers to this article, which we sell by the pound, in bulk, for their use, which cannot fail to give them universal satisfaction. Try it. Liberal discount to Jobbers of these goods. We pay the express on one gross to any part of New England, and to any point in the United States reached by Merchants' Union Express. Address

Orders and letters of inquiry promptly executed.

DEALERS IN SAWS OF ALL KINDS.

ESTABLISHED BARRE, MASS., 1830.

HICKS'
STEAM ENGINE,

MANUFACTURED BY THE

SALEM MACHINE COMPANY,

SALEM, MASS.

The Cheapest, Strongest, and most durable Engine ever Built. Its Advantages over other Engines are,

GREATER ECONOMY IN PRICE, SPACE, AND WEIGHT.
GREAT REDUCTION OF FRICTION, AND CONSEQUENT ECONOMY OF STEAM.
EXTREME SIMPLICITY OF CONSTRUCTION AND OPERATION.
GREATER DURABILITY AND SAVING OF REPAIRS.
REQUIRING NO PROTECTION FROM THE WEATHER.
GREAT CONVENIENCE AND ECONOMY OF TRANSPORTATION.
CAN BE RUN AT ANY VELOCITY AND IN ANY POSITION.
IT HAS NO DEAD POINTS.
MORE PERFECT AND RAPID VALVE-MOTIONS.
DISPENSING WITH ALL EXTERNAL VALVES AND STEAM-CHESTS.
DISPENSING WITH ALL VALVE AND REVERSING GEAR.
MORE UNIFORM AND CONTINUOUS MOTION.
THE CYLINDERS CANNOT GET OUT OF LINE.
GREAT ECONOMY OF FOUNDATIONS AND SETTING-UP.
HIGHER SPEED OF REVOLUTIONS.

It will be apparent from the cut, that all the working parts are encased in one casting, and are in no way exposed to the action of the weather, or to an accumulation of dirt.

The number of parts, and the wearing surface being so vastly reduced, tends of course to the same *decrease of wear and tear, and of the risks and costs of repairs.* In this connection, the *facility of repairs* deserves especial notice, every part being accessible by the removal of a few bolts, and the whole machine being capable of dissection and reconstruction in a few minutes, and the *parts also being interchangeable*, any portion can be quickly and cheaply replaced.

One of the most scientific experts in the country says:—"It secures all the advantages which could be claimed for a Rotary Engine, while retaining the principle and action of the usual Reciprocating Piston Engine. It seems to me that the LIMIT as regards SIMPLICITY, combined with CHEAPNESS of CONSTRUCTION, ECONOMY in REPAIR, and in the USE of STEAM, has been reached in this invention."

SEND FOR A CIRCULAR.

BRIDGEWATER FORGE.

ROBINSON'S PATENT

SYSTEM OF VENTILATION,

For Churches, Schoolrooms, Prisons, Stables, Factories and Workshops, Drying and Dressing Rooms, &c., Founded on the only correct Theory of Ventilation.

Has been applied in many hundreds of cases with universal success. On page 37, of the Boston School Report for 1864, see this:

"In the nearly or quite unanimous opinion and experience of the members of the School Board, the system of ventilation represented by Robinson's Instruments, is the best now in the market. Their judgment, in this respect, is based, not upon mere theory, but on positive, indisputable facts. In the Bowditch Grammar-School House, and in the Primary School-House on Harrison Avenue, the success of these ventilators has been *complete*, and *entirely satisfactory*, and CAN NOT BE QUESTIONED."

O. P. DRAKE & CO.,

MANUFACTURERS OF

DRAKE'S PATENT

SOLAR GAS MACHINES,

FOR LIGHTING

PRIVATE DWELLINGS, CHURCHES, HOTELS, AND FACTORIES,

In any Locality, at as cheap a rate as Coal Gas is afforded in the largest cities.

We manufacture eight sizes of the SOLAR GAS MACHINE, ranging from ten to five hundred light capacity. Every machine is put in operation and fully tested before it is sent off, and is guaranteed to give perfect satisfaction. This new apparatus is the result of fifteen years of experience in this special line of manufacture, and we feel warranted in asserting that our machine excels all others of a similar kind in the market. It is much simpler and more efficient than any former manufacture, and is constructed with special reference to safety and durability. There is no possibility of an explosion under any circumstances whatever, nor is the gas tank likely to leak or give out, or any part of the machine to get out of order, if reasonable care is taken of it. From five to fifteen minutes' daily attention is all that is required to keep any size of machine in perfect working order to supply all the burner jets in a dwelling or factory.

The SOLAR GAS is manufactured by the admixture of ATMOSPHERIC AIR with the VAPOR OF GASOLEINE. The gasoleine is contained in the tank **A**, and the air is supplied by an air-forcing pump located and operated within the cylindrical case **B, C**. The pump is revolved on shaft **D** by means of cord **E**, pulleys **F**, and weight **G**. The latter is arranged to wind up like a clock weight by applying the crank **F** to the projecting end of shaft or winding-drum **D**, the weight **G** acting as the propelling power to revolve the air pump, and thus force air in contact with the volatile gasoleine fluid which is exposed to the action of the air by means of an absorbent vaporizer.

Gasoleine is a volatile hydro-carbon fluid obtained from crude petroleum and bituminous coals, and is an article of regular manufacture by gas and oil and petroleum distillers, and is furnished to the consumer at an average of fifty cents per gallon, at that price it will furnish a ten candle light at five-sixths of a cent per house. Five gallons is estimated equal to one thousand cubic feet coal gas.

Reliable Agents wanted in every State to introduce

THE SOLAR GAS MACHINE.

Constantly on hand, **DRAKE'S METALLIC GASOLEINE BARRELS AND GASOLEINE.**

Gas Fixtures and Burners Adapted to Burning the Solar Gas.

We manufacture Apothecaries' Balances and Weights; also Chemist and Bank Balances. Proprietors of DRAKE'S BENZOLINE, for removing all Grease and Paint Stains from all Fabrics.

O. P. DRAKE & CO., 6 & 8 Bedford St., Boston, Mass.

THE ÆTNA SEWING MACHINE.

Is a Lock-Stitch, easy-running, noiseless, and durable Shuttle Machine; has a Straight Needle, with Patent Protector, and combines the good qualities of all the first-class Machines yet invented.

IT IS UNSURPASSED FOR FAMILY AND MANUFACTURING PURPOSES,

In durability, simplicity, and wide range of work. The finest fabrics of tissue, and all the varieties of stitching, seaming, hemming, tucking, felling, braiding, cording, binding, etc., up to cloth and heavy plain and ornamental harness and carriage-work, is done with unerring regularity, ease, and celerity.

In the Industrial Exhibitions at Cologne and Stettin, Europe, the highest premiums were awarded to our Machines, 1865, and at the American Institute, New York, 1865, and two silver medals at Illinois State Fair in 1866.

OUR MANUFACTURING MACHINES

Are unequalled for tailors, shoe and harness-makers; and we can refer to the best houses in New York and Lynn, Mass., for their usefulness and superiory for manufacturing purposes.

OUR REPUTATION HAS BEEN FULLY ESTABLISHED

In New York, where over twelve thousand Machines are in use, and they are the favorite of every household for their extensive range of work, durability, and elegance in design.

☞ Agents wanted in every town and county in the Eastern States.

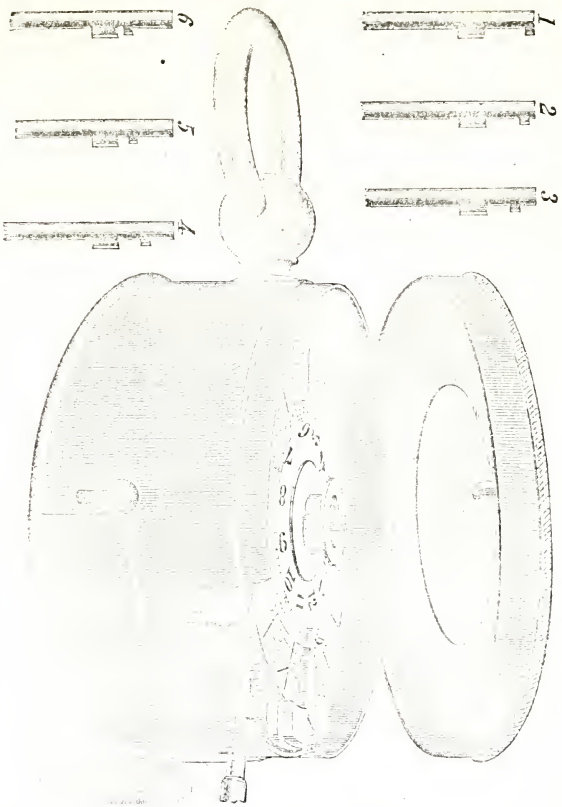
The best Force Pump in the world, which the company are now prepared to furnish to all manufacturers, of every size and capacity desired. The company have two sizes made constantly for new patterns, and no *manufacturing establishment* should be without one or more. The various sizes constantly on hand and for sale. Also Linen, Leather and Rubber Hose, Hose Pipes, and Couplings. Steam Pipe and fixtures, &c., by

H. M. WISWALL, Agent.

46 CONGRESS STREET, BOSTON.

Buerk's Watchman's Time Detector.



The above engraving is a view of a Time Detector, which is carried about by the watchman to all the different stations to be guarded. At each station is a small key, securely fastened to prevent his taking it with him. The watchman goes from station to station, takes the key fastened there, inserts it into the clock, gives it one turn, and goes on to the next, or to any other station, for he is not bound to go in regular order. By this it follows that a perfect record will be kept of each operation.

The broken-out portion of the watch shows the mechanism which operates the pin which pricks the paper. At A, there is a number of sliding bars which connect with the pricking points, so that, by turning round the key, the ward on it strikes a certain bar and penetrates the dial-paper B. By that act, a small hole is made in the paper, which tells what time the man appeared at each station; how often he came there; how long he stopped; how long it took him to go from one to another; whether he went in regular order or not; in short, it gives a complete record of his night's work.

BUERK'S

Watchman's Time Detector.

This WATCH-CLOCK was introduced to the public in almost every section of the United States and Canadas, several years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed, but with this a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger. But when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks; a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building, and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand pouches with straps to go over the shoulder and around the body, which I will send with the clock, if ordered. Price, $2.50.

The instrument will in all cases be warranted perfect and satisfactory.

Its price is invariably **Seventy-Five Dollars**, Cash on Delivery, including as many Keys as are requisite, not exceeding twelve.

THIS WATCH-CLOCK IS SOLD AT A LESS PRICE THAN ANY OTHER IN THE MARKET.

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from which numerous testimonials have been received.

N.B. Parties purchasing these Clocks should test them sufficiently in the counting room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

☞ This Detector is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

All Communications promptly attended to.

ADDRESS

J. E. BUERK, Proprietor,

47 Congress Street, BOSTON.

P. O. Box, No. 1057.

GENERAL AGENCY OF THE

Connecticut Mutual Life Insurance Co.,

No. 84 WASHINGTON STREET, BOSTON.

ASSETS OVER $14,000,000.

The attention of Capitalists, Merchants, and business men, is respectfully invited to the claims of the Connecticut Mutual Life Insurance Company, of Hartford, Conn. The assets of this Company now amount to over Fourteen Millions of Dollars, all securely and profitably invested.

Premiums and Interest for the year ending Nov. 1, 1866, amounted to about $6,000,000.

Its dividends, which are declared and annually paid four years after payment of the premium, have averaged over *Fifty per cent.* of the premium for twenty years past, and the dividend now being paid is *Sixty per cent.*

In adjusting losses by death, dividends are anticipated at fifty per cent. and allowed *upon each premium paid*, and in such a manner that *the number of dividends will always equal the number of outstanding notes.*

EDWIN RAY, *General Agent.*
